

"We're not going to 10 different people to find out what the issue is. We're working directly with those who support us. They know our business inside and out."

Peter Finn, Co-Head of ETF Portfolio Management & Operations, Legal & General Investment Management

Uncompromising ETF Portfolio Management Solutions

COMPREHENSIVE ETF FOCUSED PLATFORM

We have been supporting ETF managers for over 10 years by closely working with them to create a highly automated roadmap for their daily and periodic processes.

Truss Edge & Safari provide real-time monitoring and control of your trading teams, providing oversight of markets, limits, strategies and risk.

FRONT OFFICE

- We consume index provider data and UCFs, produce, amend and distribute PCFs and PLFs.
- Fully integrated OMS/PMS.
- AP Dealing integration, in-kind trading, manager initiated trading, and re-balancing on physically and synthetically replicated and actively managed funds.
- Trade allocation, iNAV, portfolio construction, treasury and cash, STIF trades, securities lending and collateral management.
- Integrated risk and compliance, custom dashboards and analysis.

MIDDLE OFFICE

- Automated and integrated reconciliation of Cash and Trade activity (T+1 & T0).
- Automated trade settlement and operations, dashboard driven and exception-based platform.

BACK OFFICE

- Integrated comprehensive accounting GL, GAV and iNAV.
- Automate accruals, process corporate actions.
- Send and receive data and reports, including compliance and regulatory reporting.
